

2-Minute Story Exercise

God has given every one of us who are believers a story. Our story was not meant to be a private personal affair. God intended us to share it with others. As we learned from the videos, our story is compelling when shared after asking a few questions to engage in a conversation about faith. For your study, today, take some time to write out your story of faith. Answer the questions that have been provided, and be brief so that you can share all of your answers in about two minutes or less. After you are done, practice sharing your story. You may want to read it out loud or write it on a notecard.

1. What was your life like before you gave it over to Jesus?
2. Where you were at and what happened when you gave your life to Jesus?
3. What difference has Jesus made in your life since you gave it to Him?
